

ENERGY EVERYWHERE
HOSPITALITY & TOURISM

HAVING A GOOD TIME REQUIRES **ENERGY**

Tourism and hospitality play a key role in every country, as they boost the economy, generate employment, develop infrastructure and promote cultural exchanges.

It is therefore crucial that any infrastructure that supports this sector, such as hotels and accommodation, event centers or restaurants, has a reliable electricity supply. A power failure can lead to the paralysis of IT and air conditioning systems, the downtime of machinery and electrical and electronic equipment, causing discomfort and frustration among guests and visitors, and leading to economic and security losses.

One solution to this scenario is, of course, the use of generator sets capable of starting automatically, taking on the load of the facilities, to supply them with the energy needed for everything to work without interruption.

Over the years, Grupel has developed and supplied energy projects for hotels and touristic venues all over the world, helping these businesses to avoid losses due to power cuts or failures.

GRUPEL SOLUTIONS FOR TOURISM

With a vast experience and technical know-how, Grupel's Engineering Department designs and produces solutions according to the needs of each client and the specificities of each application and location. From small guesthouses to big hotels, from restaurants or event venues to convention centers, Grupel offers robust and reliable generator sets for all types of support energy supply.

WHAT FEATURES DO THESE GENERATOR SETS HAVE?

ENGINEERING

Creation of the solution in accordance with current regulations and the requirements of the installation, considering its location and energy consumption.

ROBUSTNESS

Resistant canopies with an anti-corrosion finish for harsh environments and exposure to dust, humidity and bad weather.

ADAPTABILITY

Compliance with international standards regarding emissions and noise, through soundproofing and the inclusion of components such as STAGE V engines.

POWER RANGE

A wide range of powers for projects of different sizes and with different energy needs, ensuring an uninterrupted power supply.

DIVERSITY OF EXTRAS

Incorporation of extra components, such as remote start, communication modules, including Wi-Fi, to ensure a safe and efficient operation.

EASY MAINTENANCE

Easy access to components to facilitate preventive maintenance of the equipment, such as checking filters and changing the oil and diesel supply.

APPLICABLE PRODUCT RANGES

PR

PORTABLE RANGE

2-15kVA

Generators that are easy to transport and ideal for powering low-power equipment such as small engines and tools. The range includes equipment with automatic and remote start, and an inverter model that allows for parallel operation.

SR

SMART RANGE

8-65kVA

Reliable generator sets prepared to respond to power failures.

These gensets start automatically in this type of situation, guaranteeing the power supply of small machines and electrical and electronic equipment.

IR

INDUSTRIAL RANGE

40-1250kVA

High-power range, with generators suitable for demanding projects such as big touristic developments, hotels and event venues.

Robust options, adapted to harsh environments with dust and humidity.

RR

RENTAL RANGE

Highly resistant power generators suitable for recurring transportation. With a more durable bolted canopy, openings in the chassis and lifting eye for transportation, and the possibility of including STAGE V engines to comply with European standards.

LT

LIGHTING TOWERS

Ideal for applications where natural light and mains power are scarce, they guarantee light for night works and remote contexts. Robust and easily transportable, being available with a manual or pneumatic mast of up to 7m and illuminating an area of up to 4,500m².

OUR PROJECTS FOR TOURISM

Over the years, Grupel has created highly reliable and robust solutions by adapting its products to the needs of real clients, contributing to the development of local communities in Portugal and around the world.

ALAMBIQUE DE OURO HOTEL PORTUGAL

⚡ 2,2MVA 🏠 Perkins 🏠 Leroy Somer

To guarantee an uninterrupted power supply to a resort hotel in Portugal, Grupel produced two 1100kVA generator sets.

The equipment is robust, reliable and can operate in parallel, ensuring power for the entire complex comprising 153 rooms, swimming pools, spa, gym, restaurants, event and party venues.

BILENE BEACH HOTEL MOZAMBIQUE

⚡ 5MVA 🏠 MTU 🏠 Leroy Somer

To guarantee reliable power for a hotel located on Bilene Beach in Mozambique, Grupel produced and supplied a project that includes four power generators of 1260kVA. A project that guarantees a safe power supply to systems, machinery and electrical and electronic equipment, preventing loss or damage normally caused by power failures.

HILTON HOTEL CAPE VERDE

⚡ 2,7MVA 🏠 Perkins 🏠 Stamford / Marelli

Grupel project comprising two 1250kVA generator sets and a third 200kVA set to support the Hilton Resort Hotel in Cape Verde.

The equipment ensures an uninterrupted power supply to the entire facility, including the accommodation and food court areas, and the associated security, IT and air conditioning systems.

WEDDING VENUE

SPAIN

⚡ 2,2MVA 🚛 Iveco 📦 Stamford

A 100kVA generator set that supports a wedding venue in Granada, Spain, operating in standby mode and therefore coming into action if the regular power grid fails.

In this way, it guarantees uninterrupted power to the entire venue and the events taking place there, preventing damage and losses.

WORLD OF WINE

PORTUGAL

⚡ 100kVA 🚛 Iveco 📦 Stamford

Grupel supplied a project with four generators of 550kVA each, that can operate in parallel for an important cultural quarter in Portugal.

The development has a total area of 55,000 m², including seven museums, twelve restaurants and coffee shops, an exhibition gallery and stores, and welcomes 1 million visitors a year.

GRAND CENTRAL HOTEL

UNITED KINGDOM

⚡ 450kVA 🚛 FPT 📦 Stamford

Grupel developed and produced a project consisting of a 450kVA generator set supporting a hotel in the United Kingdom.

This genset operates in standby mode and therefore are able to start automatically in the event of a mains failure, guaranteeing an uninterrupted power supply to the infrastructure.

GRUPEL
energy everywhere

4000

Founded in 1976, Grupel was born with the mission of taking Energy where it is needed.

Our wide range of products includes standard generators from 3 to 3500kVA, portable lighting towers and complex special projects developed on a custom basis.

We have a 360° specialized team that guarantees quality services, from design to technical assistance and spare parts supply.

Grupel has the confidence of the Portuguese market, having been distinguished with the Five Stars Award (Prémio Cinco Estrelas) and the SME Leader (PME Líder) status. And it is also recognized on a global scale, being present in over 70 countries.

The best Energy. From Portugal to the world.

6 REASONS TO CHOOSE **GRUPEL**

EXPERIENCE

For over 45 years, Grupel designs, produces and sells power generators, taking energy to the whole world, with its unique know-how and experience.

FOCUS ON THE CLIENT

Grupel works for the satisfaction of its clients, supporting the entire life cycle of their projects and developing the best solutions for each need.

GLOBAL SCALE

Grupel is a brand awarded on several occasions in Portugal and recognized internationally, being present in over 70 countries on 5 continents.

VERSATILITY

With a wide range of powers, Grupel can serve highly demanding applications such as industries, data centers, hospitals or power plants and cogeneration systems.

TECHNICAL ASSISTANCE

Grupel's team responds to any doubt or intervention that you may need, through maintenance services, technical assistance and supply of spare parts.

QUALITY

Grupel works with components from internationally renowned brands and its own brand, being certified by the quality standards ISO 9001 and 14001 and the CE marking.

TECHNICAL SUPPORT AND **AFTER SALES SERVICES**

TECHNICAL ASSISTANCE

Performed remotely,
by phone
or on site.

SPARE PARTS SERVICE

Spare parts for engines,
alternators and generators
of all brands.

GENERATOR MAINTENANCE

Full and personalized
monitoring of your
equipment.

START-UP AND TRAINING

Functional tests and
training for the use of
the equipment.

GENERATOR REFINISHMENT

Improvement of obsolete
generators or components in
poor condition.

SOLUTIONS AND PROJECTS

Proposals
tailored
to your needs.
